🌐 Project Portfolio

PROFESSIONAL SUMMARY

Business Intelligence and Product Analyst with experience in enterprise SaaS, specialising in product analytics, business intelligence, and data-driven decision-making. Skilled at translating complex business problems into actionable insights through stakeholder collaboration, analytical thinking, and effective data storytelling.

PROFESSIONAL EXPERIENCE

06/2022 - 04/2024 **Product Analyst** (*Sprinklr India Pvt. Ltd. - Bangalore, India*)

Product Analyst with experience in enterprise client consulting, product strategy, account health analysis, governance optimisation, product usage analytics, and cross-functional collaboration with Product and Engineering teams

- **Increased Sprinklr platform adoption by 35%** for a leading telecommunications client by designing and implementing an optimised engagement dashboard.
- Developed a **Crisis Monitoring & Prevention** framework, reducing social media risk and delivering actionable insights for a global pharmaceutical client.
- Reduced **Cost per Mille (CPM)** by **15%** for a global retail brand by implementing a User-Generated Content (UGC) workflow that streamlined content sourcing and ownership within the Sprinklr platform.

06/2021 - 07/2021 **Project Intern** (*UST Global - Remote, India*)

Performed **kinematic and dynamic analysis**, simulation, and trajectory optimisation for collaborative robots (COBOTs) using **MATLAB, ROS, and MoveIt**.

12/2020 - 02/2021 **Project Intern** (*Larsen & Toubro Defence - Remote, India*)

Conducted research on **pyro and non-pyro stage auxiliary systems**, analysed launch vehicle architectures, and designed a **stage separation mechanism** for a two-stage launch vehicle.

SKILLS

Microsoft Excel	SQL	Power BI	DAX	Power Query
Python (Pandas)	Data Modeling	Data Visualization	Product Analytics	Business Intelligence
A/B Testing	Platform Governance	Account Health Analysis	Stakeholder Management	Cross-functional Collaboration

PROJECTS

FinPay Analytics	Developed an end-to-end fintech analytics solution using Python, SQL Server, and Power BI, transforming raw transaction data into interactive dashboards through ETL, dimensional modelling, and DAX.
Accident Analysis	Engineered a Business Intelligence dashboard for national road safety analysis by performing ETL, data modelling, KPI development, and visualisation to identify accident hotspots, risk factors, and actionable policy recommendations.

PUBLICATION

08/2022 A fully-coupled vibro-acoustic model of an electronic stethoscope (*Institute of Noise Control Engineering*)

EDUCATION

2018 - 2022 (India) Indian Institute of Technology, Palakkad (*B.Tech - Mechanical Engineering*)
